FLOCK HOUSING NEEDS ATTENTION

Is the last of July too early to be talking about poultry housing? Not if past experience of many poultry-raisers is any indication.

Although in most parts of the country birds are not housed until September at the earliest, there are some advocates of earlier housing - particularly if chicks were started early. Some raisers who like to get the jump on the fall egg market start their chicks in January or February, housing them this month. However, these early birds are definitely in the minority.

Prepare Laying House Now

Even for September-housed pullets, this is not too early to be thinking of housing. Remember last year how the eggs started popping up in grassy clumps on the range, and how there were suddenly a dozen or two things to do in the laying house before the pullets could be installed?

Better look over your laying house now and make a list of the things that need doing. Start to replace broken windows and bursted siding. Insulate if you have not already done so. Perhaps this is the time to be thinking of a new or supplementary ventilating system.

Does the laying house have sufficient window space, and does it have enough electric lights? Isn't this the time to install a new pit-type roost? Are the nests sufficient in number to assure clean eggs? (One test is the correct ratio of right height from bottom tier should be above litter).

If you, as a prospect to harvest the desire, remember the house must be comfortable for inmates.

Democratic Candidate For Governor

Election Next Tuesday August 2nd

HORACE H. EDWARDS

Voters of Appomattox, Charlotte, Buckingham and ...berland Counties:

You Want To Have Extra Taxes On Your Lands ... Homes and Personal Property?

...ere that is just what will happen if you don't vote ... Horace H. Edwards for Governor. Your real estate ... personal property will have to bear the tax unless ...et the SALES TAX, where everybody can pay a ...

WE HAVE GOT TO HAVE BETTER SCHOOLS

...now have 496,500 school children. War babies are ...ng into schools. Census records indicate a constant ...ease in the number of school children during the ... nine years and predict a total of *750,000* ...ool children, white and colored, by 1958. That means ...are going to have to hire 8,000 more teachers and ...d and enlarge schools.

...W THE EDWARDS PLAN CAN HELP US:

... Edwards school sales tax plan can provide us with ...money the easy way. We won't have to issue bonds ...schools without something to pay them with. If we ...t take the sales tax now, we'll get debt & higher ...es. And after that we will get a sales tax, too. No ...der 67 boards of supervisors have endorsed a sales ... and 27 states already have it.

...E SALES TAX IS FAIR TO ALL:

...e people work hard and save their money. They ...their savings into homes and farms. If we don't ...es on your farms and homes. The fair way is to have ...little from many, without hurting any!"

HOW CAN THEY KEEP THEIR PROMISES?

I think other candidates have promised to spend a lot more money than they have in sight. This means only one thing - that they will have to raise taxes or fail to keep their promises. Only Edwards has balanced his books to show where the cost of schools will come from.

THE SALES TAX IS FAIR TO FARMERS:

Horace Edwards proposes that farmers' machinery, his fertilizer, seed and feeds will be exempt from the tax. These are the farmers' raw materials for manufacture. This is a retail sales tax. It will not be put on the farmers' tobacco, corn, wheat, meat or other products when he sells it to wholesalers and commission merchants. Edwards has said this from the beginning. He means it. Don't believe anything else!

THE TIDE HAS TURNED TO EDWARDS:

Thinking farmers see the fairness of Edwards' proposal. I believe merchants will find the sales tax plan satisfactory and the accruing advantages will repay them the trouble of collecting. Certainly the sales tax will forestall the need for additional direct taxes on them.

THINK IT OVER AND VOTE RIGHT:

Horace Edwards is the only candidate realistic enough to tell the voters the truth. All of them know that we are going to have to have more school money. Only Mr. Edwards had the nerve to spread the whole picture before you, and advocate a plan that is fair to all! The boards of supervisors of 67 counties think this is a fair plan. Our Senators and Congressmen recently voted a sales tax for Washington.

GET ON THE SCHOOL BUSSES WITH EDWARDS AND THE CHILDREN AND RIDE OVER MORE NICE HARD-TOP ROADS TO GOOD SCHOOLS WHERE WELL - PREPARED TEACHERS CAN TEACH THEM TO LEAD VIRGINIA ON. AND LET THE FARMERS WITH THEIR PRODUCE MOVE RIGHT BEHIND THEM ON BETTER COUNTRY ROADS. HORACE EDWARDS WAS BORN ON A FARM.

HE UNDERSTANDS COUNTRY LIFE AND THE FARMER'S PROBLEMS.

Edwards is BEST for the Democratic Party and for Virginia! He can UNITE the Party, and give Virginia a REAL PROGRAM.

Your Friend,

CHAS. T. MOSES

August 2 is V. E. Day! Vote EDWARDS!
